Rule making related to special permits

The Department of Transportation hereby amends Chapter 511, “Special Permits for Operation and Movement of Vehicles and Loads of Excess Size and Weight,” Iowa Administrative Code.

Legal Authority for Rule Making

This rule making is adopted under the authority provided in Iowa Code sections 307.12 and 321E.15.

State or Federal Law Implemented

This rule making implements, in whole or in part, Iowa Code sections 321.454, 321.456, 321.457 and 321E.29.

Purpose and Summary

This rule making updates Chapter 511 to align the rules with existing legal authority, Department practice, and Iowa Code chapters 321 and 321E as amended by 2020 Iowa Acts, House File 2310, sections 1 to 4.

These amendments strike references to the permit for divisible loads of hay, straw, stover, or bagged livestock bedding since that permit was eliminated by the Legislature and clarifies that a permit for special or emergency circumstances is also authorized under Iowa Code section 321E.29. These amendments also add a reference to the fee for a special alternative energy permit, which is set forth in Iowa Code section 321E.14 but was not previously included in Chapter 511. A technical change was made to the payment methods accepted by the Department so that the rule will align with current Department procedures.

These amendments conform with the current Department practice of permittees accessing the most up-to-date route and detour information from the 511ia.org website, rather than having to call a person at the Department to receive the information.
